Answers and marking guidance

Award one mark per correct, developed point unless stated. Other valid answers should be credited.

2 Describe two advantages of producing preliminary sketches manually rather than on a computer.

- Quick to produce, so many ideas can be explored
- No equipment or software needed, so ideas can be sketched anywhere
- Can be done in front of the client and changed instantly
- Low cost

No marks for: "Easier" with no explanation

3 Quick check

- a) Preliminary graphics
- b) Production graphic
- c) Promotional graphic
- d) It is quick and needs no equipment

4 Key terms

- 1 – A
- 2 – B
- 3 – C

5 Describe the advantage of manual sketching.

- Fast, needs no equipment, good for sharing ideas with a client on the spot.

6 Describe the advantage of CAD graphics.

- Accurate and easy to edit; can be shared, reused, rendered and sent to CAM.
