Preliminary, production & promotional graphics

GRAPHICS WITH MR KELLY

National 5 · Drawing & spatial awareness · Worksheet

Name _____ Class _____ Date _____

By the end of this worksheet I can…

- ☐ explain the role of preliminary, production and promotional graphics, linked to a product
- ☐ compare manual and computer-aided graphic techniques

I DO — Worked example

Read how a full-mark answer is built

A company is designing a garden cabin. Figure 1 is a rendered image of the cabin beside a lake. Figure 2 is a dimensioned floor plan. Figure 3 is a set of annotated freehand sketches.

1 Describe the purpose of each figure. Your answer must refer to the cabin. (3 marks)

Full-mark answer each ✓ is one mark

Figure 1 is a promotional graphic: it advertises the cabin to customers by showing how it looks beside the lake ✓. Figure 2 is a production graphic: it gives the builder the sizes and positions of the walls, doors and windows so the cabin can be built ✓. Figure 3 is a preliminary graphic: the sketches communicate the designer's early ideas for the cabin's style and size to the client ✓.

Why answers lose marks

"Figure 1 is promotional, Figure 2 is production and Figure 3 is preliminary."

0 marks: the types are named but nothing is linked to the cabin.

WE DO — Guided practice

Use the starters and word bank to help you

2 Describe two advantages of producing preliminary sketches manually rather than on a computer. (2 marks)

Sentence starters

One … is …, which means …

Another … is …, so …

Word bank

equipment · explored · needed · anywhere · sketched · produce · software · client

Tip: 2 marks = 2 separate, developed points.

Preliminary, production & promotional graphics

National 5 · Drawing & spatial awareness · Worksheet

YOU DO **On your own** No notes. Check your answers afterwards.

3 Quick check: tick one box for each.

a) Which is a benefit of manual sketching over CAD?
☐ It is more accurate ☐ It can be sent straight to a 3D printer ☐ It is quick and needs no equipment ☐ It is easier to edit

b) Thumbnails and annotated freehand sketches are...
☐ Preliminary graphics ☐ Production graphics ☐ Promotional graphics ☐ Assembly drawings

c) A fully dimensioned orthographic drawing for a manufacturer is a...
☐ Preliminary graphic ☐ Production graphic ☐ Promotional graphic ☐ Thumbnail

d) A rendered image of a new car on a billboard is a...
☐ Production graphic ☐ Preliminary graphic ☐ Promotional graphic ☐ Sectional view

4 Key terms: write the letter of the matching description next to each term.

1. **Preliminary graphic**	____	**A** A graphic that advertises or sells: posters, leaflets, packaging, web pages, renders.
2. **Production graphic**	____	**B** Quick sketches and thumbnails used to generate and explore ideas, for the designer and client.
3. **Promotional graphic**	____	**C** Accurate, dimensioned drawing to standards so the item can be manufactured or built.

5 Describe the advantage of manual sketching. (2 marks)

6 Describe the advantage of CAD graphics. (2 marks)

Check and reflect
Mark your answers with the answer sheet. Go back to the checklist on the site and re-rate each “I can” statement above. Which one still needs work?
