Answers and marking guidance

Award one mark per correct, developed point unless stated. Other valid answers should be credited.

2 Describe two idea-generation techniques.

- Max 3 per technique
- Brainstorming: problem stated simply; group records every idea within a time limit; no criticism; build on ideas
- Morphological analysis: break the product into parameters; list options; combine one from each
- Analogy: take an idea from another context (e.g. nature) and adapt it
- Mood board: collage of images setting the theme and aesthetic

No marks for: Naming only

3 Quick check

- a) Synthesis
- b) Every idea is recorded without criticism
- c) Analogy
- d) It creates many unique combinations of variables

4 Key terms

- 1 – C
- 2 – D
- 3 – B
- 4 – E
- 5 – A

5 Explain what is meant by ‘Synthesis’.

- Combining the best features of several ideas into one stronger idea.

6 Explain what is meant by ‘Refinement’.

- Adding detail needed to manufacture: final sizes, materials, construction and assembly.
