Answers and marking guidance

Award one mark per correct, developed point unless stated. Other valid answers should be credited.

2 Explain why high-speed steel is used for drill bits and why steel buckets are coated in zinc.

- High-speed steel stays hard and keeps its cutting edge at the high temperatures of fast cutting
- Zinc coating (galvanising) protects the steel from rusting, even if scratched

No marks for: "Strong" for high-speed steel

3 Quick check

- a) Zinc
- b) Tin
- c) Stainless steel
- d) Mild steel

4 Key terms

- 1 – D
- 2 – B
- 3 – C
- 4 – E
- 5 – F
- 6 – A

5 Give the properties and one use of Copper.

- Excellent electrical conductor. Wires, pipes.

6 Give the properties and one use of High-speed steel.

- Stays sharp at high cutting speeds. Drill bits.
