Answers and marking guidance

Award one mark per correct, developed point unless stated. Other valid answers should be credited.

2 Describe how safety has influenced the design of the scooter.

- Rear brake operated by the foot so the child can stop
- Wide deck and wheelbase for stability
- Rounded ends to handlebars with rubber end caps
- Non-slip grip tape on the deck
- Folding mechanism locks so fingers cannot be trapped in use
- Reflectors so the child is seen

No marks for: A list of parts; Repeating a point used for function

3 Quick check

- a) Guard over moving blades
- b) Psychology
- c) Physiology
- d) 5th

4 Key terms

- 1 – C
- 2 – B
- 3 – A

5 Explain which percentile is used for reach, and why.

- 5th percentile, so smaller users can reach.

6 Explain which percentile is used for clearance, and why.

- 95th percentile, so larger users fit through or under.
