Woods & manufactured boards

D&M WITH MR KELLY

National 5 · Materials & manufacture · Worksheet

Name _____ Class _____ Date _____

By the end of this worksheet I can…

- ☐ describe the properties and uses of beech, ash, oak and mahogany
- ☐ describe the properties and uses of red pine and spruce
- ☐ describe the properties and uses of plywood, flexi-ply, MDF, chipboard and hardboard

I DO — Worked example

Read how a full-mark answer is built

A back panel for a pine wall cabinet is made from MDF.

1 Outline two benefits of using MDF rather than solid pine for the back panel. (2 marks)

Full-mark answer each ✓ is one mark

MDF comes in large wide sheets, so the back can be cut in one piece without joining boards ✓. It is stable and will not warp or twist like solid pine can ✓.

Why answers lose marks

"It is cheap and easy to use."

0 marks: unqualified "cheap" and "easy" never score.

WE DO — Guided practice

Use the starters and word bank to help you

A child's toy is turned on the wood lathe.

2 (i) Name a suitable hardwood for the toy. (ii) Name a tool used to check the turned diameter. (2 marks)

Sentence starters

One … is …, which means …

Another … is …, so …

Word bank

Beech · outside · vernier · Ash · Oak · hardwood · close-grained · callipers

Tip: 2 marks = 2 separate, developed points.

YOU DO **On your own** No notes. Check your answers afterwards.

3 Quick check: tick one box for each.

a) Which is a drawback of chipboard?
☐ Very expensive ☐ Brittle and hard to screw into ☐ Too flexible ☐ Only available in small widths

b) Which is a softwood?
☐ Beech ☐ Oak ☐ Spruce ☐ Mahogany

c) Why does plywood have an odd number of layers with grain at 90°?
☐ To make it cheaper ☐ To reduce warping and add strength ☐ So it bends easily ☐ For colour

d) Which hardwood suits a cricket bat or hammer handle?
☐ Ash ☐ Mahogany ☐ MDF ☐ Spruce

4 Key terms: write the letter of the matching description next to each term.

1. **Softwood source**	____	**A** Hardwood: very durable. Quality and outdoor furniture, barrels.
2. **Hardwood source**	____	**B** Hardwood: tough, bends well. Sports bats, tool handles.
3. **Beech**	____	**C** Odd number of veneers with grain at 90°: strong and stable.
4. **Ash**	____	**D** Coniferous trees: evergreen, needle leaves, fast growing.
5. **Oak**	____	**E** Hardwood: very strong, turns well. Toys, spoons, chairs.
6. **Plywood**	____	**F** Deciduous trees: broad leaves shed in winter, slow growing.

5 Give the properties and one use of MDF. (2 marks)

6 Describe the advantage of manufactured boards. (2 marks)

Check and reflect

Mark your answers with the answer sheet. Go back to the checklist on the site and re-rate each “I can” statement above. Which one still needs work?
