Answers and marking guidance

Award one mark per correct, developed point unless stated. Other valid answers should be credited.

2 State the most suitable pictorial view and explain why.

- Planometric
- The plan is drawn true shape, so the layout and sizes of units are clear, while verticals show height

No marks for: Isometric or oblique without justification

3 Quick check

- a) 30°
- b) Halved
- c) Planometric
- d) Oblique

4 Key terms

- 1 – C
- 2 – A
- 3 – E
- 4 – B
- 5 – D

5 State the name of the view and describe one reason it is used for presentation.

- Two-point perspective
- It looks realistic, as the eye sees it, so a client can understand the design easily

6 Explain what is meant by ‘Two-point perspective’.

- Two vanishing points on the horizon line; verticals stay vertical.

7 Explain what is meant by ‘Horizon line’.

- Eye level in a perspective drawing.
