- ☐ describe what influences the aesthetics of products

I DO — Worked example

Read how a full-mark answer is built

Two table lamps, one aimed at teenagers and one at older adults.

1 Describe how aesthetics have been used in the design of the lamps. You should refer to parts of the lamps. (4 marks)

Full-mark answer each ✓ is one mark

The teenage lamp uses a bright pink shade, which appeals to a young market ✓. Its base is a geometric angular form that looks modern ✓. The traditional lamp uses a brushed brass stem that gives a high quality feel ✓. Its cream fabric shade contrasts with the dark wooden base ✓.

Why marks are not awarded

"Colour, shape, texture, contrast."

0 marks: a list of aesthetic terms not linked to parts of the lamps scores nothing.
