WOODWORK WITH MR KELLY

Name _____ Class _____ Date _____

By the end of this worksheet I can…

- ☐ choose nails, screws, brackets, corner blocks and knock-down fittings
- ☐ give valid advantages and disadvantages of knock-down fittings
- ☐ choose interior and exterior adhesives

I DO — Worked example

Read how a full-mark answer is built

A flat-pack desk is made from chipboard and joined with knock-down fittings.

1 Describe a valid advantage of knock-down fittings. (1 mark)

Full-mark answer each ✓ is one mark

The desk can be taken apart and flat-packed to be moved or stored ✓.

Why marks are not awarded

"They make the desk stronger."

0 marks: KD fittings are not stronger than glued joints.

WE DO — Guided practice

Use the starters and word bank to help you

Screws are used to fix a top to a cabinet.

2 Describe why a pilot hole is drilled before inserting a screw. (1 mark)

Sentence starters

One … is …, which means …

Another … is …, so …

Word bank

splitting · guides

Tip: 1 marks = 1 separate, developed points.

YOU DO — On your own

No notes. Check your answers afterwards.

3 Quick check: tick one box for each.

a) Which is a real advantage of knock-down fittings?

☐ Stronger than glued joints ☐ No tools needed ever ☐ Never work loose ☐ Can be taken apart and moved

b) Which screw head sits flush with the surface?

☐ Round head ☐ Countersunk ☐ Pan head ☐ Dome head

c) Why drill a pilot hole before screwing?

☐ To stop the wood splitting ☐ To make it look neat ☐ To use a shorter screw ☐ To hide the screw

d) Which glue suits a garden bench?
☐ Interior PVA wood glue ☐ A glue stick ☐ Exterior (waterproof) glue ☐ Hot-melt glue

4 Key terms: write the letter of the matching description next to each term.

1. **PVA**	____	**A** Bought fitting that lets furniture be taken apart
2. **Glue for an outdoor product**	____	**B** Exterior (waterproof) wood glue, e.g. waterproof PVA
3. **Pilot hole**	____	**C** The head sits flush with the surface
4. **Countersunk screw**	____	**D** White glue for interior woodwork
5. **Knock-down fitting**	____	**E** A small hole so a screw doesn't split the wood
6. **KD advantage**	____	**F** Can be taken apart and moved; quick to assemble

A bird box will be fixed outside on a tree.

5 State a suitable adhesive and give a reason. (2 marks)

The joints of a small frame are reinforced.

6 Name two mechanical fixings that could reinforce a butt joint. (2 marks)

Check and reflect
Mark your answers with the answer sheet. Go back to the checklist on the site and re-rate each “I can” statement above. Which one still needs work?
