Answers and marking guidance

Award one mark per correct, developed point unless stated. Other valid answers should be credited.

2 Explain the purpose of the symbol.

- It shows the feature has a square cross-section (25 × 25)

No marks for: "Cubed"

3 Quick check

- a) Parallel (datum) dimensioning
- b) Chain
- c) Square section
- d) Thin chain

4 Key terms

- 1 – B
- 2 – E
- 3 – D
- 4 – C
- 5 – F
- 6 – A

5 State the scale of the detail view.

- 5:1

6 State the name of each line type: X runs along a crease, Y is thick and continuous around the edge, Z runs through the centre of a circular window.

- X: fold line
- Y: outline
- Z: centre line

7 State the name of each method and give one advantage of each.

- Method 1: chain dimensioning
- Advantage: clearly shows the size from one feature to the next
- Method 2: parallel (datum) dimensioning
- Advantage: avoids accumulated error, as all sizes are relative to one datum edge
