Answers and marking guidance

Award one mark per correct, developed point unless stated. Other valid answers should be credited.

2 Explain two advantages of rendered images for a non-specialist audience.

- They are easy for non-specialists to understand
- Colours, materials and textures are shown realistically
- The product looks realistic before it has been made

No marks for: "Shows what it looks like in real life"

3 Quick check

- a) Non-specialist audiences
- b) Light source
- c) Decal

4 Key terms

- 1 – C
- 2 – A
- 3 – B

5 Explain two benefits of 3D printing the prototype.

- No moulds or tooling are needed for a one-off
- The prototype can be held and tested
- Complex shapes print in one go
- Accurate, straight from the CAD file
- Easy to change the design and reprint
- Little waste material

No marks for: "Cheap" or "quick" on their own

6 Why render for a client?

- Easy for non-specialists to understand; shows materials and colours realistically.
