Answers and marking guidance

Award one mark per correct, developed point unless stated. Other valid answers should be credited.

2 Explain two reasons why a designer writes a specification.

- Sets clear limits so the designer knows exactly what the product must do
- Gives direction so ideas meet the client's needs
- Ideas can be checked against it to choose the best one
- The finished product can be evaluated against it to see if it is successful
- Pulls the brief and research findings together in one place

No marks for: "To help the designer" with no explanation

3 Quick check

- a) It must fit a 40 mm diameter water bottle
- b) Brief and research
