Answers and marking guidance

Award one mark per correct, developed point unless stated. Other valid answers should be credited.

2 Describe a benefit of using sustainably sourced wood.

- Trees are replanted so forests are maintained
- Wildlife habitats are protected
- Long-term supply of timber

3 Quick check

- a) Planning the cutting list to reduce waste
- b) It's made from waste wood
- c) Safely, following workshop procedures
- d) The wood comes from responsibly managed forests

4 Key terms

- 1 – C
- 2 – A
- 3 – F
- 4 – E
- 5 – D
- 6 – B

5 Describe one environmental advantage and one disadvantage of chipboard compared with pine.

- Advantage: made from waste wood/chips, so fewer trees are used
- Disadvantage: contains resins/glues, so it is harder to recycle and can give off fumes

6 Describe two ways the workshop could reduce or recycle this waste.

- Keep offcuts in a bin for small jobs
- Use sawdust for animal bedding, compost or biomass
- Plan cutting lists carefully
